Title: CRYPTOLOGIC ELECTRONIC ANALYSIS UNIT (CEAU)
ASSISTANCE TO THE SEATTLE FIELD OFFICE

Synopsis: Operations Order to assist the Seattle Field Office with effectuating remote delivery of a Computer Internet Protocol Address Verifier (CIPAV) to geophysically locate a subject who has issued multiple bomb threat against a local high school.

Details: The Seattle Field Office has requested assistance from the CEAU with geophysically locating a subject engaged in issuing bomb threats via the Internet to Timberline High School, Lacey, Washington. The objective of the operation is to remotely deploy a CIPAV to geophysically locate the subject.

BACKGROUND

On 06/06/2007, the Seattle Division was contacted by Lacey Police Department (LPD), Lacey, WA, regarding numerous bomb threats and DDOS attacks received at the Timberline School District, Lacey, WA. Below are a time-line of events:

05/30/2007 - Timberline High School evacuation due to hand written bomb threat note.

06/04/2007 - Timberline High School evacuation due to bomb threat email from sender: [redacted] UNSUB(s) also

Re: 268-HQ-1305912-SDG, 06/13/2007

advised a computer attack will hit the Lacey School District, which resulted in a DDOS attack totaling over 80,000,000 hits.

06/05/2007 - Timberline High School evacuation due to bomb threat email from sender: [redacted]

b6 -6
b7C -6

06/06/2007 - Timberline High School evacuation due to bomb threat email from sender: [redacted]

06/07/2007 - Timberline High School received additional email from UNSUB(s). Details unknown at present time.

LPD and the Washington State Patrol (WSP) continue to perform school evacuations and bomb sweeps with negative results. Parents and school district employees have informed local television stations and newspapers, which aired the story on June 6, 2007. LPD has requested investigative assistance from the Northwest Cyber Crime Task Force.

LPD has conducted numerous thorough interviews of a student at Timberline High School, [redacted] appears not to be the subject responsible for bomb threats. [redacted] and teachers from Timberline High School provided a list of other students who may be responsible for the threats and DDOS attack. [redacted] received a text message from [redacted] [redacted] DOB [redacted] FBI Number [redacted] on 06/03/2007, advising "Keep your head up." [redacted] is described by teachers as a self proclaimed computer hacker that routinely bypasses the school computer security measures. [redacted] computer is in LPD custody and forensic results are pending. Initial interview of [redacted] provided negative results.

Friday, June 8, 2007

Bomb threat at high school downplayed by local police department.

The Associated Press

LACEY Wash. — Technology savvy student holds Timberline High School hostage. The suspect is still unknown after several bomb threats and 5 days of school evacuations. Anonymous bomb threats to high schools are a growing trend in rural America.

Timberline High School is the latest victim in an increasing trend of computer related extortion schemes. These schemes all involve a similar pattern: several threats made over a week by students utilizing technology. These threats receive low media attention. School officials and law enforcement downplay the risk associated with the threats and disregard pleas from concerned parents and students.

Although similar incidents have occurred in Kentucky, Michigan, and Virginia, the Timberline threat shows an escalation in sophistication and computer hacking skills.

[Statistics to come on each threat. Including: duration of threat, cost estimate for damage, and psychological factors]

The most significant difference with the Timberline threat is the use of My Space and obfuscated emails. According to sources at Timberline High School, the subject uses other students' emails to send the bomb threats, most often going by the name of "Doug." Additionally, the suspect has set up a My Space page to taunt students. According to "Doug", # students have joined the My Space page. A frenzy of students are trying to identify "Doug", yet none have succeeded.

In response to the students' race to identify the suspect, "Doug" comments

[Place comment here]

School officials have given parents and students little assurance of the threats ending soon. Timberline Principal Dave Lehnis stated, "While the administration and law enforcement believe the school is safe and secure, we understand if parents want to keep their students at home and we will work with them to get the homework they need."

The emotional toll on the students can be seen by the significant absentee numbers. If school officials and law enforcement are not taking this threat seriously, the parents are.

Here are my comments on my legal review of the application for a search warrant in this case. This application is much better than the previous version, and there are only a few issues that I believe need to be addressed or clarified.

Not a legal point, but check your formatting in para 11. The way the document printed on my computer there were some problems.

[Large redacted block]

b5 -1,2

In f. (probably should be b.) , Remove the brackets from around Virginia, and you need to add language that makes it clear that the information you are saying may be collected will [redacted] and that after that it will only be collecting addressing, routing, etc. (the stuff covered by a pen register, trap and trace).

That's all that I have. I have spoken with [redacted] and he has no technical issues that need addressing. Let me know how we can be of further help.
